

# ROCORI SCHOOL DISTRICT

## Meeting Agenda for the Technology Committee October, 26 2017

### 1. New copiers.

There are two new copiers in Secondary Building. One of the copiers old copiers has been removed for good. The other copier is being repurposed (only a year old) to CSE so they have two copiers in their copy room. Both the secondary copiers were replaced for less money than the maintenance fees.

Instructions could be taped on the wall for a short time so staff can get used to the new machine. The directions were emailed but it would be helpful to have them up for a while.

There is a person from Loffler who will becoming out on Tuesday for official training. We can ask for basic que sheet.

Richmond and Rockville copiers will be look at this summer.

Referendum- different numbers were given last night than what were sent out in the brochures. It is likely that it was two documents explaining two different things. This information should be brought to Brian to look into further. He will bring them to Scott and the vote Yes committee since they are creating confusion.

### 2. Social media review.

Every month we get a report on how are social media numbers are doing. We have higher reaches and likes since starting #SocialSchool4Edu. Report attached below.

### 3. Maker Space Webinar.

Thursday, November 16 2017 – 1pm -2pm

Board Room will be checked out to watch the webinar and discuss afterwards.

Committee member will share the Maker Space Webinar information to the staff who would be interested.

### 4. Committee vision for the school year.

This will depend on if the referendum passes.

Ideas:

-Follow-up/Finish webpage platform decisions

# ROCORI SCHOOL DISTRICT

-Making Teleconference between Elementary schools possible. Eventually we would like to conference to classrooms in other places. Skype does not work properly. If we could get Skype to work properly they have Skype in the Classroom. Mystery Skype is a fun geography game like 21 questions to figure out where in the world the other classroom you are communicating are from.

-Mobile printing/release printing: students can print from their own devices. The release printing would solve security issues of Special Education needing their own printers. This would not work for labs but for the media center.

Keep thinking of ideas and we can further plan the vision of the Technology committee at the next meeting.

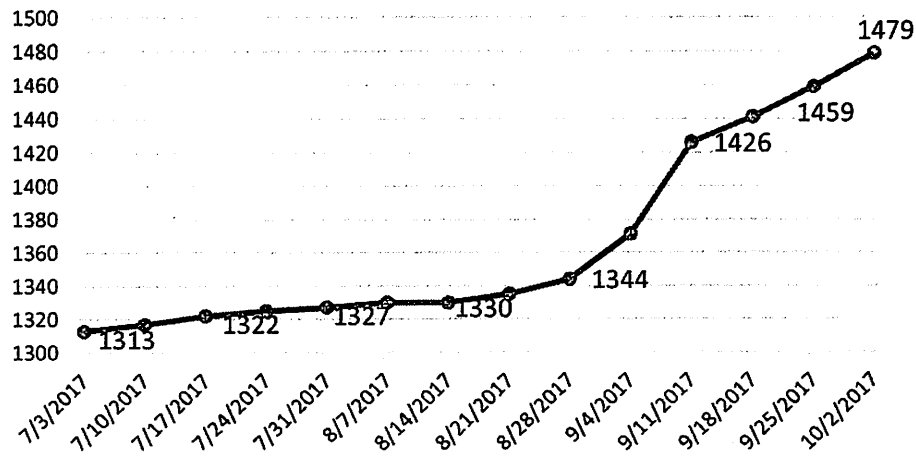

Live Streaming: This could possibly happen for Basketball. This was not possible yet for football because there isn't internet out at the box.

**Attendees: Greg S, Sheila C, Jan C, Brian M, Linda L, Sam C, Roz J, Scott S,**

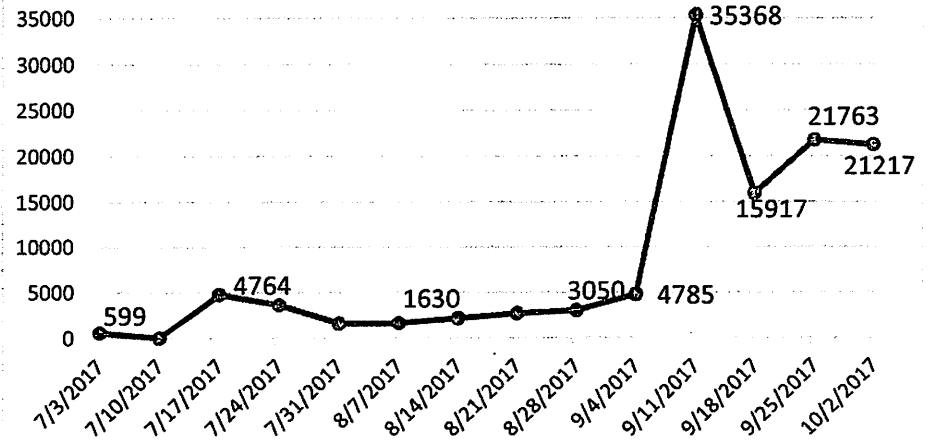

## July – September 2017 - Social Media Review – ROCORI

Facebook Page Likes

Facebook Reach by Week

Your average weekly Facebook reach is **7,540 per week** & your community is seeing **1.2 posts per day** (lower because of summer months)

### Top Facebook Posts:

**Keep it Up:** Your district has been sending great videos! It’s awesome that you share from multiple schools. We also had good communication with Brian throughout the flag issue, which was very helpful in responding to social media concerns.

**Improvement Suggestions:** We could use more images of smaller moments that are going on in your classrooms, such as the students during classroom lessons, or doing fun activities. These kinds of posts that show every day activities really give our followers a true glimpse of the awesome things going on in our schools.

#SocialSchool4EDU is always open for feedback! Concerns, complaints, and suggestions welcomed at [andrea@socialschool4edu.com](mailto:andrea@socialschool4edu.com).

# MAKER SPACE WEBINAR:

HOW PROJECT-BASED  
& MAKER SPACE LEARNING  
CAN FIT INTO YOUR  
SCHOOL'S FUTURE

**ENTER FOR A CHANCE TO  
WIN A LEARNING STUDIO  
FOR YOUR SCHOOL!**

## WHEN:

**Thursday, November 16 2017**  
1:00 P.M.-2:00 P.M.

## Register online at:

[budurl.me/5amap](http://budurl.me/5amap)

Email questions at: [EDUsupport@bestbuy.com](mailto:EDUsupport@bestbuy.com)

## WHAT YOU'LL EXPERIENCE WITH THIS WEBINAR:

Hear first-hand how Richfield, MN Public Schools is using the Learning Studio and how it's impacting teaching and learning.

Digital Promise Global will present their findings and research from more than 80 global Learning Studios on how students are being prepared for successful 21st-century careers in science technology, engineering, arts and math (STEAM).
