

**Offered as an Employee Benefit at ROCORI Schools since 1994!**

**Open enrollment allows you to:**

- \*Learn how Aflac works with your current health insurance and why it is different than health insurance because you are paid a dollar amount.
- \*Learn why Aflac is needed more than ever and how plans are customized to each person's needs.
- \*Have questions answered about general insurance questions.

**How Aflac could help you:**

**\*\*\*Protect Your Income / Maternity Benefits**

**Short Term Disability** – Benefits are paid based on your salary if you are disabled and unable to work because of an off the job injury or sickness; benefits would pay for 90 days and then your long term disability would take over. *Maternity benefits are available.* Ask about the **Aflac Value Added Rider** that pays you a loyalty dollar amount of **up to \$1000** after five years.

\*Also consider – Accident and Hospital

**\*\*\*Supplement Your Health Insurance / Buy Down Your Deductible / Maternity Coverage:**

**Accident** – Aflac's most used plan. Benefits are paid when a policyholder needs medical care for any injury. Family coverage is available. Individual rates start at \$12.36/per pay period. Ask me how this plan helped me pay for my son's injuries ☺!

**Hospital** – Pays a specific benefit when someone is hospitalized for injury or illness and covers even more when this plan is paired with the accident policy. *Family coverage and maternity coverage is available.* Individual rates start at \$11.22-\$19.98 per pay period. Ask me how this plan helped me!!

\*Also consider - Cancer

**\*\*\*Long Term Financial Protection:**

**Cancer** - Allows you to keep what you have worked hard for – retirement, savings, etc., with benefits being paid to a policyholder for treatment of cancer to assist with expenses not covered by health insurance. Family coverage is also available. Individual rates start at \$15.88/per pay period. Ask me how this plan helped me!!

**Life Insurance** – Many people we meet do not have enough coverage or do not understand how much coverage they should have. Plans include term and whole life with benefit amounts starting at \$10,000 and up depending on age. Rates will depend on underwriting questions, age, sex, and tobacco usage. Ask for a free quote when we meet!
