Respectful Workplace

In addition to maintaining a work environment free of discrimination, harassment and violence, it is the practice of the District to maintain a work environment where employees treat each other and students, parents and visitors with respect. Employees have the responsibility to conduct themselves in a manner befitting the important work of an educational institution, and in accordance with the District's mission to provide an instructional environment that is caring and supportive. Employees also have the responsibility to conduct themselves in an ethical manner.

Respectful conduct includes, for example, treating others with courtesy and in a professional manner, valuing their perspective and appreciating their contributions. Disrespectful conduct includes, for example, aggressive, intimidating, demeaning, degrading, disruptive or malicious remarks or behavior.

An employee who believes that he or she has been treated in a disrespectful manner, or who witnesses disrespectful or unethical conduct, should contact his or her supervisor, principal, or the Superintendent.

Conflict Resolution

The District encourages employees to discuss any issues they may have with a co-worker directly with that individual. If you are unable to resolve the problem or issue, please contact your supervisor and arrange a meeting to discuss your concerns. It is counterproductive for employees to create or repeat rumors or gossip.

Criminal Background Checks - Employees

In order for an individual to be eligible for employment or to provide athletic coaching services or other extracurricular academic coaching services to the District, the individual must complete an employee background check. These are available on our district website, under our Employment tab using Trusted Employees. The new employee will submit

their payment directly to the background check site. The offer of employment or the opportunity to provide services shall be conditioned upon a determination by the District that an individual's criminal history does not preclude the individual from employment with, or provision of services to, the District.

Criminal Background Checks - Volunteers

The District requires volunteers and chaperones to submit to a criminal history background check. The opportunity to volunteer or chaperone shall be conditioned upon a determination by the District that an individual's criminal history does not preclude the individual from volunteering with, or provision of services to, the District. The individual must complete a volunteer background check. These are available on our district website, under our "Information" tab, titled "Volunteer Opportunities." The new volunteer will submit their payment directly to the background check site.

Volunteers/chaperones must check in with the Administrative Assistant at the school site to ensure a current background check is on file prior to scheduling their volunteer hours.

Employee Use of Technology/Social Media

The District recognizes the value of inquiry, investigation, and innovation using new technology tools to enhance the learning experience, and the various technologies that make communication by school personnel with students and parents instantaneous and efficient. The District also recognizes its obligation to teach and ensure responsible and safe use of these technologies.

The District takes no position on employees' decision to participate in the use of social media networks for personal use using personal time. However, use of these media for personal use during District time or using District equipment or resources is prohibited. The District also discourages employees from interacting with students using personal email addresses, personal phone numbers, and personal social media networks or accounts. In addition, employees must avoid posting any information or engaging in communication that violates School District policies, rules and regulations, as well as any state or federal law, including but not limited to, the Minnesota Government Data Practices Act and the Family Educational Rights and Privacy Act. Furthermore, employees must not engage in communications that have an actual or potential negative impact on the School District's educational or work environment.

The line between professional and personal relationships may be blurred within a social media context. When employees choose to join or engage with District students, families or fellow employees in a social media context that exists outside those approved by the District, they are advised to maintain their professionalism as District employees and for maintaining appropriate employee-student relationships at all times, and have responsibility for addressing inappropriate behavior or activity on these networks, including requirements for mandated reporting under the Minnesota Maltreatment of Minors Act.

The District provides certain social media tools for communicating about school classrooms, activities, and functions. The list of school sanctioned tools may be obtained from the IT Department. District employees who wish to establish a new social media tool for use in the classroom or for a school activity or function must obtain the Superintendent's written approval for it to become a sanctioned tool. The first step toward obtaining such approval is to contact the IT Department. As with other school provided technology, there is no expectation of privacy with respect to what employees post or share via school sanctioned social media tools.

Employees who are responsible for an official school or District online social media site must be mindful that any non-original content may be subject to copyright protection and that any links to other websites may be viewed as an

endorsement of the linked content. Any statements or postings made on an official school or District website must be objective and factual and are subject to review and revision by the District administration.

Whether engaging in personal or school-sanctioned social media, employees should remember they are role models to students in this community. Employees should refrain from using language that is obscene, profane or vulgar and should not engage in communication or conduct that is harassing, threatening, bullying, libelous, or defamatory or that encourages any illegal activity or the inappropriate use of alcohol, illegal drugs, sexual behavior, or sexual harassment, or bullying. Employees may not disclose information on any social media network that is confidential or proprietary to the District, its students, or employees or that is protected by data privacy laws, including but not limited to images of students.

An employee who is responsible for a social media network posting or site's content that fails to comply with the rules and guidelines set forth in this policy may be subject to discipline, up to and including termination. The District is free to view and monitor an employee's social media activity at any time without consent or previous approval.

Nothing in this policy is intended nor does it restrict any District employee's rights under Section 7 of the National Labor Relations Act.

After Hours Building Use

Employees should refrain from working in buildings at night, on summer breaks or on school breaks when buildings are vacant. Working alone or in isolation may be unsafe and requires special arrangements to minimize potential risks of injury. By protecting our employees, we are also protecting their friends, families, fellow workers, management, the public, and the environment from the serious effects that result from incidents.

We are a public entity and as such, personal use of the facilities and equipment is not permitted. Anyone using the facilities and equipment for personal use will have their access to the buildings terminated other than authorized school hours.

Employees who wish to utilize the school building(s)/facilities for purposes such as tutoring, music lessons, exercise classes or other non-work related use need to work through the Community Education Department.

Personnel Files

Upon written request, an employee may review his/her personnel record. If you would like to review your file, please obtain the form for reviewing your personnel file from your building secretary and contact the District Office.

Change of Personal Data

Employees are expected to notify the District Office whenever they experience a change in name, address, number of dependents, telephone number, emergency contact person, or marital status, so District records and files can be updated. An employee may also need to complete another federal employee withholding allowance certificate (W-4), as well as various health insurance forms. For most benefits, employees only have 30 calendar days from the date of the event resulting in a change to make adjustments to such benefit.

Professional Appearance

All District employees are expected to report to work dressed in a manner that reflects positively on the image of the District and consistent with the high standards and professionalism we set for ourselves as a District.

Employees are expected to present a well-groomed, professional appearance and to practice good personal hygiene. Remember, to students, parents and the public, District employees represent the District. Inappropriate dress may vary depending on the job and job settings, which includes safety concerns. If, in the judgment of an administrator or supervisor, an employee is not properly dressed, the administrator or supervisor has a responsibility to direct the employee to leave District premises until he or she is properly dressed.

Absences

All District employees must enter an absence request for any regular scheduled duty days/shifts. Employees are required to enter absences into Frontline Absence Management, the automated absence reporting/sub calling system, which can be accessed either by phone or internet. Absences can be entered up to 6:45 a.m. on the day of the absence. Employees will need to contact their building secretary or supervisor if they forget to enter the absence or miss the cut-off time. All absences must be reported/entered for tracking purposes.

The procedure is as follows:

1. Employee enters absence request prior to the occurrence.
2. Supervisor electronically approves/denies the request.
3. Absence occurs, if approved.

For unexpected absences, employees must notify their supervisor or designee to report their absence before work starts. Family members may report the absence in extreme cases. If the employee fails to call in, the employee may be placed on unauthorized leave without pay and subject to other corrective action.

If the absence is due to an accident or injury, a medical note will be required prior to returning to work. If the absence is due to an illness, a medical note may be required. If any absence is longer than three days, a medical note will be required. Any change to the original length of leave will require an updated note from the doctor.

If the leave is due to a medical procedure, a note from the doctor is preferred before the leave occurs and then another note from the doctor is required prior to the employees' return.

Personal Leave days should be requested two days ahead of the leave if it is a nonemergency. Refer to your specific agreement for language on the number of days requests may be made in advance.

District employees are required to take responsibility for reporting their own absence by following the proper procedure. Recurring failure to follow the absence procedure will be considered a deficiency.

Recording Hours Worked

Non-exempt, hourly employees are required to use the electronic time keeping system through Skyward (True Time) to record all hours worked. The payroll week is Sunday through Saturday. Time cards are to be submitted electronically each week at the end of the week. Time cards will then be approved by your supervisor.

Any time that is worked over and above your normal scheduled hours must be preapproved by your supervisor, then documented by an additional hours form and submitted to your supervisor for signature. These forms must be received by the District Office within 48 business hours after the end of that pay period for proper processing.

Dependability

All employees are expected to maintain satisfactory attendance and report to work on time every day. Absences and tardiness create an unfair burden to co-workers and should be avoided. Absences, late arrivals and early departures must be kept to a minimum. Excessive absences or late arrivals may result in disciplinary action by the District. All leaves, whether paid or unpaid, must be scheduled in accordance with District procedures and with current applicable collective bargaining agreements.

Overtime

Overtime at the rate of one and one-half (1-1/2) times the base rate will be paid to nonexempt employees for all hours physically worked over 40 hours in a standard work week of Sunday through Saturday.

Paychecks

The District issues paychecks through direct deposit or paper check on a semi-monthly basis. Employees enrolled in direct deposit are solely responsible for updating and changing bank account information as needed.

Employees are responsible for reviewing their payroll check information for proper deductions, benefits and wages. An employee who believes there is a mistake with respect to his or her paycheck, or who believes an improper deduction was made from their salary, should contact the Payroll Department. Paychecks are available through Skyward Employee Access.

Wages

Under the Minnesota Wage Disclosure Protection law, you have the right to tell any person the amount of your own wages. The District does not retaliate against employees who disclose their own wages. Remedies are available under the Wage Disclosure Protection law to bring a civil action against your employer and/or file a complaint with the Minnesota Department of Labor and Industry at (651) 284-5070 or 1-800-342-5354.

Lactation Breaks

The District will accommodate employees who desire to express breast milk during working hours by providing a reasonable amount of break time, according to Minnesota Statute 181.939.

Upon request, the District will provide employees with a private room, other than a bathroom, that is shielded from view and free from intrusion and includes access to an electrical outlet in which to express milk in privacy. Please contact your building administrator to request such a room.

Jury Duty

Employees who receive a summons for jury duty are to notify their principal or immediate supervisor as soon as possible after receipt of the summons. Should employees be selected as jurors, they will be allowed time off which should be entered into the automated absence system. If employees serving on jury duty are excused during the workday and schedule permits, they should return to their respective building to complete their normal assignment. Employees agree to return the pay for jury service to the District, but not including travel or expense allocation.

School Conference/Activity Leave of Absence

Eligible employees may take leave up to a total of sixteen (16) hours during any twelve (12) month period to attend pre-school or school conferences, observations or activities related to the employee's child, if such conferences,

observations or activities cannot be scheduled during non-work hours. Employees are eligible for such school conference activity leave if they have worked for ROCORI School District for an average of twenty (20) hours or more per week. The District pays for the first hour of each leave. Time taken beyond one hour will be unpaid or paid personal or vacation time will be applied.

Military Leave of Absence

The District will grant an unpaid military leave of absence to eligible employees for training or service in the National Guard, Reserves or any other branch of the United States Armed Services. Employees are required to notify their supervisor as soon as they are aware of the need for military leave, including a copy of the orders directing the military duty, unless the employee is prevented from doing so by military necessity.

Emergency School Closings

Area School Districts work with one another on weather-related emergencies. In a renewed effort to gather as accurate weather information as is available, the districts rely on the expertise of St. Cloud State University meteorologists for weather forecasts. Professors at the University localize forecasts and advise the districts on closing decisions.

If inclement weather is in the forecast, school closing or late start information is available on the following radio and television stations: WJON (1240 AM), WCCO (830 AM), KNSI (1450 AM), WJJO (98.1 FM), KCLD (104.7 FM), KARE/Channel 11, KMSP/Channel 9, WCCO/Channel 4 and KMSP/Channel 5.

In addition to radio and television outlets, weather alerts are announced on the District website, Facebook page, Twitter, the St. Cloud Times website at www.sctimes.com and the Skylert System. Any updates to the Skylert System should be made with the District Office.

Emergency Plan

All educational institutions are vulnerable to threats, hazards and disasters which have the potential to become emergencies or disasters. It is critical for the District to plan for, respond to and recover from these potential incidents. The purpose of the All-Hazards plan is to provide an overview of the District's approach to emergency operations. It provides information for staff or volunteers to respond to an issue that may arise while in one of our buildings. The information is contained in some form in each classroom, in school offices, and other prominent areas in the buildings. Each employee should familiarize themselves with the location and contents of this plan

Security Badges/Fob

Security badges must be worn at all times when an employee is in any part of a school building. All visitors are required to sign in through the main office using our visitor management system. Any employee who sees anyone in a school building who is wearing neither a security badge nor a visitor's pass shall direct that person to the main office. If the person does not proceed to the main office, the staff member shall alert the main office immediately. If the person presents an imminent threat, the staff member should take immediate action to implement the building's emergency procedures.

Employees who misplace or lose their security badge or fob must notify their Supervisor **immediately**. The lost fob will be deactivated and a new one issued at a cost of \$20 to the employee. If the lost fob is found, it can be turned in to the Business Office for a refund of the \$20.

Safety & Workplace Injuries

The safety of employees is a vital concern to the District, and therefore the District has adopted policies and implemented systems and infrastructure to provide safe working conditions and equipment. In addition, employees are expected to observe safety rules to protect their own safety and the safety of others at the District. Any employee who comes upon an unsafe condition, must immediately notify the head custodian or building principal as soon as possible.

We have developed and implemented an exposure control plan for blood borne pathogens to reduce the potential for workplace exposure. In this plan we have identified Nurses, Health Techs, Custodians, Cleaners, Special Education staff, Coaches, Trainers and Industrial Tech staff as potentially exposed staff based on their job duties. The hepatitis B vaccination is available to these individuals. For further information, please see the District Safety Officer, Brent Neisinger.

When someone is injured at work:

- If it is an emergency, **CALL 911**
- The employee AND supervisor should call the Nurse Hotline (844) 847-8708 together. (If no supervisor is available, the employee can call alone.) Do this as soon as possible. The registered nurse who answers will ask what happened and recommend what to do next, whether it's self-care, urgent care or even the emergency room. The nurse will report the injury to the workers comp insurance company.
- A staff accident investigation report should be filled out immediately or as soon as possible to help report potential risks so that they may be mitigated to prevent future injuries. This is to be sent to the District Office immediately.

Employee Checkout Process

All employees leaving the employment of the District must go through their building secretary for their check out process which may include returning any issued keys, key fobs, security badges, parking passes, or electronics. Each employee should also contact the Payroll Department to go over payroll and benefit information.

SCHOOL DISTRICT NO. 750
COLD SPRING, MINNESOTA

514 BULLYING PREVENTION POLICY

Adopted: August, 2014

Revised: August 15, 2022

Reviewed: August 15, 2022

I. PURPOSE

A safe and civil environment is needed for students to learn and attain high academic standards and to promote healthy human relationships. Bullying, like other violent or disruptive behavior, is conduct that interferes with a student's ability to learn and/or a teacher's ability to educate students in a safe environment. The school district cannot monitor the activities of students at all times and eliminate all incidents of bullying between students, particularly when students are not under the direct supervision of school personnel. However, to the extent such conduct affects the educational environment of the school district and the rights and welfare of its students and is within the control of the school district in its normal operations, the school district intends to prevent bullying and to take action to investigate, respond to, and to remediate and discipline for those acts of bullying which have not been successfully prevented. The purpose of this policy is to assist the school district in its goal of preventing and responding to acts of bullying, intimidation, violence, reprisal, retaliation, and other similar disruptive and detrimental behavior.

II. GENERAL STATEMENT OF POLICY

- A. An act of bullying, by any individual, is expressly prohibited on school premises, on school district property, at school functions or activities, or on school transportation. This policy applies not only to individuals who directly engage in an act of bullying but also to individuals who, by their indirect behavior, condone or support another individual's act of bullying. This policy also applies to any student whose conduct at any time or in any place constitutes bullying or other prohibited conduct that interferes with or obstructs the mission or operations of the school district or the safety or welfare of the student or other students, or materially and substantially interferes with a student's educational opportunities or performance or ability to participate in school functions or activities or receive school benefits, services, or privileges. This policy also applies to an act of cyberbullying regardless of whether such act is committed on or off school district property and/or with or without the use of school district resources.
- B. No teacher, administrator, volunteer, contractor, or other employee of the school district shall permit, condone, or tolerate bullying.
- C. Apparent permission or consent by a student being bullied does not lessen or negate the prohibitions contained in this policy.
- D. Retaliation against a victim, good faith reporter, or a witness of bullying is prohibited.
- E. False accusations or reports of bullying against another student are prohibited.
- F. A person who engages in an act of bullying, reprisal, retaliation, or false reporting of bullying or permits, condones, or tolerates bullying shall be subject to discipline or other remedial responses for that act in

accordance with the school district's policies and procedures, including the school district's discipline policy (See Policy 9-4).

The school district may take into account the following factors:

1. The developmental ages and maturity levels of the parties involved;
2. The levels of harm, surrounding circumstances, and nature of the behavior;
3. Past incidences or past or continuing patterns of behavior;
4. The relationship between the parties involved; and
5. The context in which the alleged incidents occurred.

Consequences for students who commit prohibited acts of bullying may range from remedial responses or positive behavioral interventions up to and including suspension and/or expulsion. The school district shall employ research-based developmentally appropriate best practices that include preventative and remedial measures and effective discipline for deterring violations of this policy, apply throughout the school district, and foster student, parent, and community participation.

Consequences for employees who permit, condone, or tolerate bullying or engage in an act of reprisal or intentional false reporting of bullying may result in disciplinary action up to and including termination or discharge.

Consequences for other individuals engaging in prohibited acts of bullying may include, but not be limited to, exclusion from school district property and events.

- G. The school district will act to investigate all complaints of bullying reported to the school district and will discipline or take appropriate action against any student, teacher, administrator, volunteer, contractor, or other employee of the school district who is found to have violated this policy.

III. DEFINITIONS

For purposes of this policy, the definitions included in this section apply.

- A. "Bullying" means intimidating, threatening, abusive, or harming conduct that is objectively offensive and:
 1. an actual or perceived imbalance of power exists between the student engaging in the prohibited conduct and the target of the prohibited conduct, and the conduct is repeated or forms a pattern; or
 2. materially and substantially interferes with a student's educational opportunities or performance or ability to participate in school functions or activities or receive school benefits, services, or privileges.

The term, "bullying," specifically includes cyberbullying as defined in this policy.

- B. "Cyberbullying" means bullying using technology or other electronic communication, including, but not limited to, a transfer of a sign, signal, writing, image, sound, or data, including a post on a social network Internet website or forum, transmitted through a computer, cell phone, or other electronic device. The term applies to prohibited conduct which occurs on school premises, on school district property, at school functions or activities, on school transportation, or on school computers, networks, forums, and mailing lists, or off school premises to the extent that it substantially and materially disrupts student learning or the school environment.
- C. "Immediately" means as soon as possible but in no event longer than 24 hours.
- D. "Intimidating, threatening, abusive, or harming conduct" means, but is not limited to, conduct that does the following:
1. Causes physical harm to a student or a student's property or causes a student to be in reasonable fear of harm to person or property;
 2. Under Minnesota common law, violates a student's reasonable expectation of privacy, defames a student, or constitutes intentional infliction of emotional distress against a student; or
 3. Is directed at any student or students, including those based on a person's actual or perceived race, ethnicity, color, creed, religion, national origin, immigration status, sex, marital status, familial status, socioeconomic status, physical appearance, sexual orientation including gender identity and expression, academic status related to student performance, disability, or status with regard to public assistance, age, or any additional characteristic defined in the Minnesota Human Rights Act (MHRA). However, prohibited conduct need not be based on any particular characteristic defined in this paragraph or the MHRA.
- E. "On school premises, on school district property, at school functions or activities, or on school transportation" means all school district buildings, school grounds, and school property or property immediately adjacent to school grounds, school bus stops, school buses, school vehicles, school contracted vehicles, or any other vehicles approved for school district purposes, the area of entrance or departure from school grounds, premises, or events, and all school-related functions, school-sponsored activities, events, or trips. School district property also may mean a student's walking route to or from school for purposes of attending school or school-related functions, activities, or events. While prohibiting bullying at these locations and events, the school district does not represent that it will provide supervision or assume liability at these locations and events.
- F. "Prohibited conduct" means bullying or cyberbullying as defined in this policy or retaliation or reprisal for asserting, alleging, reporting, or providing information about such conduct or knowingly making a false report about bullying.
- G. "Remedial response" means a measure to stop and correct prohibited conduct, prevent prohibited conduct from recurring, and protect, support, and intervene on behalf of a student who is the target or victim of prohibited conduct.
- H. "Student" means a student enrolled in a public school or a charter school.

IV. REPORTING PROCEDURE

- A. Any person who believes they have been the target or victim of bullying or any person with knowledge or belief of conduct that may constitute bullying or prohibited conduct under this policy shall report the alleged acts immediately to an appropriate school district official designated by this policy. A person may report bullying anonymously. However, the school district may not rely solely on an anonymous report to determine discipline or other remedial responses.
- B. The school district encourages the reporting party or complainant to use the report form available from the principal or building supervisor of each building or available in the school district office, but oral reports shall be considered complaints as well. The ROCORI District also maintains a "ROCORI Schools Tip Line" (320-685-4965) which allows reporting of inappropriate behaviors.
- C. The building principal, the principal's designee, or the building supervisor (hereinafter the "building report taker") is the person responsible for receiving reports of bullying or other prohibited conduct at the building level. Any person may report bullying or other prohibited conduct directly to a school district human rights officer or the superintendent. If the complaint involves the building report taker, the complaint shall be made or filed directly with the superintendent or the school district human rights officer by the reporting party or complainant.

The building report taker shall ensure that this policy and its procedures, practices, consequences, and sanctions are fairly and fully implemented and shall serve as the primary contact on policy and procedural matters. The building report taker or a third party designated by the school district shall be responsible for the investigation. The building report taker shall provide information about available community resources to the target or victim of the bullying or other prohibited conduct, the perpetrator, and other affected individuals as appropriate.

- D. A teacher, school administrator, volunteer, contractor, or other school employees shall be particularly alert to possible situations, circumstances, or events that might include bullying. Any such person who witnesses, observes, receives a report of, or has other knowledge or belief of conduct that may constitute bullying or other prohibited conduct shall make reasonable efforts to address and resolve the bullying or prohibited conduct and shall inform the building report taker immediately. School district personnel who fail to inform the building report taker of conduct that may constitute bullying or other prohibited conduct or who fail to make reasonable efforts to address and resolve the bullying or prohibited conduct in a timely manner may be subject to disciplinary action.
- E. Reports of bullying or other prohibited conduct are classified as private educational and/or personnel data and/or confidential investigative data and will not be disclosed except as permitted by law. The building report taker, in conjunction with the responsible authority, shall be responsible for keeping and regulating access to any report of bullying and the record of any resulting investigation.
- F. When investigating a complaint, the principal/designee and/or building report taker may take into account the following factors:
 - 1. The developmental ages and maturity levels of the parties involved.
 - 2. The levels of harm, surrounding circumstances, and nature of the behavior.
 - 3. Past incidences or past or continuing patterns of behavior.
 - 4. The relationship between the parties involved.
 - 5. The context in which the alleged incidents occurred.

- G. Submission of a good faith complaint or report of bullying or other prohibited conduct will not affect the complainant's or reporter's future employment, grades, work assignments, or educational or work environment.
- H. The school district will respect the privacy of the complainant(s), the individual(s) against whom the complaint is filed, and the witnesses as much as possible, consistent with the school district's obligation to investigate, take appropriate action, and comply with any legal disclosure obligations.

V. SCHOOL DISTRICT ACTION

- A. Within three days of the receipt of a complaint or report of bullying or other prohibited conduct, the school district shall undertake or authorize an investigation by the building report taker or a third party designated by the school district.
- B. The building report taker or other appropriate school district officials may take immediate steps, at their discretion, to protect the target or victim of the bullying or other prohibited conduct, the complainant, the reporter, and students or others, pending completion of an investigation of the bullying or other prohibited conduct, consistent with applicable law.
- C. The alleged perpetrator of the bullying or other prohibited conduct shall be allowed the opportunity to present a defense during the investigation or prior to the imposition of discipline or other remedial responses.
- D. Upon completion of an investigation that determines that bullying or other prohibited conduct has occurred, the school district will take appropriate action. Such action may include, but is not limited to, warning, suspension, exclusion, expulsion, transfer, remediation, termination, or discharge. Disciplinary consequences will be sufficiently severe to try to deter violations and to appropriately discipline prohibited conduct. Remedial responses to the bullying or other prohibited conduct shall be tailored to the particular incident and nature of the conduct and shall take into account the factors specified in Section II.F. of this policy. School district action taken for violation of this policy will be consistent with the requirements of applicable collective bargaining agreements; applicable statutory authority, including the Minnesota Pupil Fair Dismissal Act; the student discipline policy (See Discipline Policy 9-4) and other applicable school district policies; and applicable regulations.
- E. The school district is not authorized to disclose to a victim private educational or personnel data regarding an alleged perpetrator who is a student or employee of the school district. School officials will notify the parent(s) or guardian(s) of students who are targets of bullying or other prohibited conduct and the parent(s) or guardian(s) of alleged perpetrators of bullying or other prohibited conduct who have been involved in a reported and confirmed bullying incident of the remedial or disciplinary action taken, to the extent permitted by law.
- F. In order to prevent or respond to bullying or other prohibited conduct committed by or directed against a child with a disability, the school district shall, when determined appropriate by the child's individualized education program (IEP) team or Section 504 team, allow the child's IEP or Section 504 plan to be drafted to address the skills and proficiencies the child needs as a result of the child's disability to allow the child to respond to or not to engage in bullying or other prohibited conduct.

VI. RETALIATION OR REPRISAL

The school district will discipline or take appropriate action against any student, teacher, administrator, volunteer, contractor, or other employee of the school district who commits an act of reprisal or who retaliates against any person who asserts, alleges, or makes a good faith report of alleged bullying or prohibited conduct, who provides information about bullying or prohibited conduct, who testifies, assists, or participates in an investigation of alleged bullying or prohibited conduct, or who testifies, assists, or participates in a proceeding or hearing relating to such bullying or prohibited conduct. Retaliation includes, but is not limited to, any form of intimidation, reprisal, harassment, or intentional disparate treatment. Disciplinary consequences will be sufficiently severe to deter violations and to appropriately discipline the individual(s) who engaged in the prohibited conduct. Remedial responses to the prohibited conduct shall be tailored to the particular incident and nature of the conduct and shall take into account the factors specified in Section II.F. of this policy.

VII. TRAINING AND EDUCATION

- A. The school district shall discuss this policy with District employees and provide appropriate training regarding this policy. The training cycle for District employees shall occur during a period not to exceed every three school years. Newly employed District employees must receive the training within the first year of their employment with the school district. The school district or a school administrator may accelerate the training cycle or provide additional training based on a particular need or circumstance. This policy shall be included in employee handbooks, training materials, and publications on school rules, procedures, and standards of conduct, which materials shall also be used to publicize this policy.
- B. The school district shall require ongoing professional development, consistent with ~~Min. Stat. §~~ Minnesota Statutes section 122A.60, to build the skills of all District employees who regularly interact with students to identify, prevent, and appropriately address bullying and other prohibited conduct. Such professional development includes, but is not limited to, the following:
 - 1. Developmentally appropriate strategies both to prevent and to immediately and effectively intervene to stop prohibited conduct;
 - 2. The complex dynamics affecting a perpetrator, target, and witnesses to prohibited conduct;
 - 3. Research on prohibited conduct, including specific categories of students at risk for perpetrating or being the target or victim of bullying or other prohibited conduct in school;
 - 4. The incidence and nature of cyberbullying; and
 - 5. Internet safety and cyberbullying.
- C. The school district annually will provide education and information to students regarding bullying, including information regarding this school district policy prohibiting bullying, the harmful effects of bullying, and other applicable initiatives to prevent bullying and other prohibited conduct.
- D. The administration of the school district is directed to implement programs and other initiatives to prevent bullying, to respond to bullying in a manner that does not stigmatize the target or victim, and to make resources or referrals to resources available to targets or victims of bullying.
- E. The administration is encouraged to provide developmentally appropriate instruction and is directed to review programmatic instruction to determine if adjustments are necessary to help students identify and prevent or reduce bullying and other prohibited conduct, to value diversity in school and society, to

develop and improve students' knowledge and skills for solving problems, managing conflict, engaging in civil discourse, and recognizing, responding to, and reporting bullying or other prohibited conduct, and to make effective prevention and intervention programs available to students.

The administration must establish strategies for creating a positive school climate and use evidence-based social-emotional learning to prevent and reduce discrimination and other improper conduct.

The administration is encouraged, to the extent practicable, to take such actions as it may deem appropriate to accomplish the following:

1. Engage all students in creating a safe and supportive school environment;
 2. Partner with parents and other community members to develop and implement prevention and intervention programs;
 3. Engage all students and adults in integrating education, intervention, and other remedial responses into the school environment;
 4. Train student bystanders to intervene in and report incidents of bullying and other prohibited conduct to the schools' primary contact person;
 5. Teach students to advocate for themselves and others;
 6. Prevent inappropriate referrals to special education of students who may engage in bullying or other prohibited conduct; and
 7. Foster student collaborations that, in turn, foster a safe and supportive school climate.
- F. The school district may implement violence prevention and character development education programs to prevent or reduce policy violations. Such programs may offer instruction on character education including, but not limited to, character qualities such as attentiveness, truthfulness, respect for authority, diligence, gratefulness, self-discipline, patience, forgiveness, respect for others, peacemaking, and resourcefulness.
- G. The school district shall inform affected students and their parents of rights they may have under state and federal data practices laws to obtain access to data related to an incident and their right to contest the accuracy or completeness of the data. The school district may accomplish this requirement by inclusion of all or applicable parts of its protection and privacy of pupil records policy (See Policy 9-15) in the student handbook.

VIII. NOTICE

- A. The school district will provide annual notice of this policy to students, parents or guardians, and staff, and this policy shall appear in the student handbook.
- B. This policy or a summary thereof must be conspicuously posted in the administrative offices of the school district and the office of each school.

- C. This policy must be given to each school employee and independent contractor who regularly interacts with students
- D. Notice of the rights and responsibilities of students and their parents under this policy must be included in the student discipline policy (See Discipline Policy 9-4) distributed to parents at the beginning of each school year.
- E. This policy shall be available to all parents and other school community members in an electronic format in the language appearing on the school district's websites.
- F. The school district shall provide an electronic copy of its most recently amended policy to the Commissioner of Education.

IX. POLICY REVIEW

To the extent practicable, the School Board shall, on a cycle consistent with other school district policies, review and revise this policy.
